Professional Experience

Private Programming

2007 - now

PHP, MySQL, HTML, JavaScript

Contact Brent Haines: (801) 822.1415

- Both procedural and object oriented PHP programming of back-end inventory and production tracking for flute and sleeping bag manufacturing companies
- Some AJAX applications in the flute back-end system
- CSS styling, JavaScripting
- Database design and implementation

Digital Technology International

2004 - 2009

Trainer/programmer (PHP centric)

- Trained DTI customers in the installation, setup, and customization of a web based classified ad placement application.
- Training involved travel all over the United States and the United Kingdom.
- Learned the customer's rules of business and educated them on how to modify the PHP application to fit those rules.
- Served as customer support for this application and often used technologies such as WebEx to train and refresh their training remotely.
- Assigned by DTI to make the modifications when the customer did not have the skill set to make those changes themselves.

Southwest Management

2004 - 2004

Management

- Trained people in motorless block wall construction
- Supervised over several homes in Poinciana, Florida

WindowPanes

1995 - 2004

Owner

- Owned and operated a window cleaning company. Made the sales, did the scheduling and the servicing, and did the bookwork and the maintenance.
- Built from the ground up.
- Sold it after nearly 10 years
